NATIONWIDE HOME CARE SERVICE PLANS

Our membership plans provide payments for Home Health Care Services in the comfort of your own home at greatly reduced rates.

Why Memberships?

American Home Care Services

(AHCS) Provides a Concierge approach to Home Health Care at highly discounted rates for our Members (not an insurance policy). Each plan is designed to fit our members needs and provide home care services at time of need for pennies on the dollar of traditional payment. Our plans allow our members to receive care in the comfort of their own home by a friend, loved one or a licensed Home Health Care Professional. Our memberships provide the best chance to avoid a Long-Term Nursing Home Confinement for our Members.

- ◆ **Medicare** provides a limited number of hours and days of Home Health care and it must be prescribed through your primary doctor. It provides limited skilled care ONLY and must be medically necessary! Unfortunately, skilled care does not provide what we need when it comes to daily living activities, such as meal preparation, grocery shopping, assistance with hygiene, dressing, grooming, 24-hour care, etc.
- ◆ **American Home Care Service Plans** are a smart, prudent, and economically sound choice when compared to a traditional Long-Term Care Insurance policy or relying on a family member to save the day! When assistance becomes essential in the event of an injury, surgery or illness, these membership plans quickly coordinate care for our members in the privacy and comfort their own home. Each day can bring unexpected challenges. Being prepared for those moments gives our members and their families peace of mind and security of knowing care is only a call away. When the need for care is present, our Members can simply call our customer care hotline 24 hours a day - 7 days a week to access our care coordinator / concierge service. Our coordinators ease the stress and worries by taking the burden off of our members shoulders and making all of the arrangements for their care.

How does the Membership work? American Home Care Services coordinates with Home Health Care Agencies (Local and Nationwide) to provide home care services at a greatly reduced rate to our members. Think of it as a volume discount. The more members we bring them, the greater the discount! By pooling our members together, we gain the power to negotiate large, discounted rates that can be passed on to our members, just like you! American Home Care Services pays the Home Health Care Agencies directly for our Members.

Why is this a better alternative than insurance? Insurance seems to be a love hate relationship. We know we need it, but the cost, underwriting process, and limited coverage is the side we do not care for. As a member of American Home Care Services, you will not go through a traditional underwriting process. We say no to health questions, no to physicals, exams, doctor or nurse visits, no age limits. NO hassle!

Your membership is approved immediately*, (known as field underwriting). The cost is as low as fifty cents (.50) an hour for home care services! That is not a misprint... really!

You will receive the same care, from the same agencies as if you were paying \$25.00 to \$30.00 dollars an hour. Your membership has you covered!

Additional Member Services:
